Fireproof

At the factory, all KAPELLI door components are manufactured: PVC sheets, door frames, platbands, finishing elements. This allows maximum control over the entire production process.

PRODUCTION

The factory is founded on the production and technical base of the INTECHPLAST factory, a leader in the production of shaped PVC moldings.

STRATEGIC COMPONENTS OF SUCCESS :

- Unique experience in extrusion production
- Modern technologies
- Using high quality raw materials

The generating capacity of the enterprise allows producing 30,000 doors per month.

DISTINCTIVE FEATURES

100% moisture resistance

High heat and sound insulation

Easy installation

High resistance to household chemicals

Durability and reliability in operation

KAPTELLI – RELIABLE DOORS!
